Editorial process

Manuscripts should be submitted electronically through the Elsevier Editorial System (EES) platform on the following website <http://ees.elsevier.com/sumneg>. The information necessary for submittals is included there. The use of this resource facilitates tracking the status of the manuscript through the website.

Upon submittal of the manuscript, the author will receive a notification of receipt. The Editor will decide (within a week) whether the article progresses to revision or will not be considered for publication. Within three months, a report on the status of the paper shall be published with one of the following three labels: accepted, requires minor changes, requires greater changes, or rejected.

The decision shall be informed based on the technical reports issued by at least two anonymous peers (experts in the field). Regardless of the report issued by the peers, the final decision as to whether or not the paper is ac-

cepted in the journal shall be made by the Editor. Upon the issuance of the judgment on the acceptance (or not) of the paper, the authors shall have a period of 30 days to introduce changes, if applicable. In case of major changes, the paper shall be submitted for a new review by the peers.

Should the paper be approved, the author shall assign the publishing rights to SUMNEG. The paper shall be included on the official website of the Journal on Elsevier: <http://www.elsevier.es/es-revista-suma-negocios-208>

The best paper of the edition shall be selected in each issue. The members of the Editorial Committee shall be in charge of said appointment, and the winning paper shall receive a special mention in the issue.

For the avoidance of doubt, submitting an article does not oblige the editorial board to publish it.
